

Fuel Additives for Diesel Engines

Wynn's offers chemical treatments to meet the specific needs of both older and new engines. This ensures optimal engine performance, efficient fuel consumption and mechanical reliability.

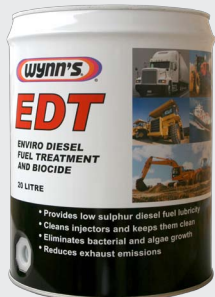

Modern and more environment friendly engines are highly tuned and operate under constantly increasing injection pressure (common rail). That's why a modern engine needs a pure fuel with excellent lubricating properties. However, this also means that these fuel systems are very sensitive to fouling, lack of lubrication and corrosion. This can cause lots of mechanical problems.

Engines with high mileage experience problems to obtain the correct air/fuel ratio or combustion efficiency due to accumulation of deposits in the fuel system.

WYNN'S EDT ENVIRO DIESEL TREATMENT

- Provides superior rating level of injector cleanliness as shown by the Cummins L10 test.
- Exceeds CSCA requirement for Peugeot XUD-9 injector cleanliness.
- Eliminates bacterial, algae, yeast and fungi growth.
- Offers exceptional lubricity for reduced fuel system wear, particularly with low sulphur diesel fuels.
- Reduces exhaust emissions by improving combustion efficiency.
- Improves fuel economy and power.
- Reduces smoke and engine deposits.
- Reduces water entrainment and prevents stable emulsion formation.
- Enhance fuel stability in storage.
- Provides superior corrosion protection.
- Decreases foam tendency of diesel fuel.
- Conditions nitrile seals and o-rings.
- Extends life of injector pumps and fuel system components.

Packages Available	Product Number
250 ml bottle	53125A
1 litre bottle	53101
5 litre can	53110
20 litre drum	53104
200 litre drum	53102

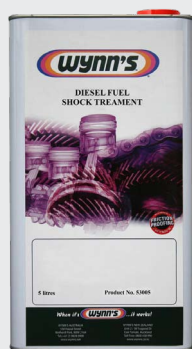

FLEET SERVICE SOLUTIONS

Fuel Additives for Diesel Engines

WYNN'S DIESEL FUEL SHOCK TREATMENT

- A concentrated fast acting biocide which kills bacteria, fungi and other micro-organisms and eliminates slime in diesel fuel.
- Non-corrosive
- Soluble both in fuel and water
- Approved for aviation fuels.
- Dosage rate 1:4000

Packages Available

5 litre

Product Number

53005
